

```
sudo zypper install cifs-utils
sudo mkdir /mnt/synology
sudo nano /etc/samba/credentials
#credentials are :
#add the following to the nano editor
username=boura-lab
password="here the actual password, ask any senior lab member"
#CTRL+X and you hit Y to save
sudo chmod 600 /etc/samba/credentials
```

```
sudo nano /etc/fstab
#add the following to the nano editor
//192.168.123.122/boura-lab /mnt/synology cifs
credentials=/etc/samba/credentials,icharset=utf8,uid=1000,gid=100,_netdev 0 0
#CTRL+X and you hit Y to save
sudo mount -a
df -h | grep synology
```
